

Stockingford Pupil Premium Strategy Statement 2022 – 25

Written by: Daniel Horishny (Dec 23)

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Stockingford Academy
Number of pupils in school	496 pupils
Proportion (%) of pupil premium eligible pupils	49% (244 pupils)
Academic year/years that our current pupil premium strategy plan covers (3 year plans are recommended)	2022-2025 (3 years)
Date this statement was published	September 2023
Date on which it will be reviewed	December 2024 (ongoing)
Statement authorised by	Gillian Bowser Headteacher
Pupil premium lead	Klarianne Clark Deputy Headteacher
Governor / Trustee lead	Claire Jones

Funding overview

Detail	Amount
	Ever 6 - 232 @ £1455/pupil = £337,292
Pupil premium funding allocation this academic year	PLAC - 5 @ £2,410/pupil = £10,015
	Service Children - 2 @ £335 = £670
Recovery premium funding allocation this academic year	£34,368
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£0
	£ 14,445
School Led Tutoring funding	
	SEND £1,269
Total budget for this academic year	£396,790
If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	

Part A: Pupil premium strategy plan

Statement of intent

At Stockingford Academy, our priority is for every pupil to achieve their full potential, achieving high attainment at least in line with their peers regardless of the social inequalities that disadvantaged children overcome on a daily basis. Our intention is to provide a nurturing and inspiring environment where every child has the skills, mindset and self-belief to overcome challenges and barriers to live life to the full and achieve individually.

High-quality teaching with high expectations of all pupils, regardless of their background, is at the heart of our approach. We put our adults in a position of knowledge to the known barriers our pupils face so that the necessary support can be put in place, both inside and outside the classroom, to remove these barriers and allow every pupil to flourish. Our aim is to raise the attainment of all children, expecting accelerated progress from our disadvantaged learners so that the attainment gap narrows.

We recognise many barriers our outside the academic and it is imperative for us, at Stockingford, to nurture our pupils, supporting their individual social, emotional and mental health to enable them to flourish as learners.

Key to the implementation of this strategy are:

- High expectations of all pupils
- Equity over equality: giving each child the support they need
- Supporting the whole pupil, ensuring each child's emotional needs are met so that they can all flourish
- A whole school approach whereby all staff take responsibility to help raise the outcomes of disadvantaged learners

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge	
1	Underdeveloped communication and language skills upon entry delays development of oracy reading and writing skills from Reception to the end of KS2, leading to lower outcomes. This is generally more prevalent amongst our disadvantaged pupils.	
2	Attendance rates are below the national average with PP attendance rates below those of their non-PP peers whilst persistent absence is significantly above the national average.	
3	We have increased numbers of families, particularly amongst our disadvantaged youngsters, who have complex needs, SEND and SEMH, and require greater structured support.	
4	Some families, particularly those of disadvantaged children, need greater support to access experiences that will widen horizons, develop cultural capital and enrich a child's life experiences.	

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria	
Improved oral language skills and vocabulary, particularly among disadvantaged pupils	 WellComm and NELI interventions ensure children meet age related ELG expectations by the end of Reception (in line with national and LA outcomes) Higher % of Reception children achieving the ELG of communication and language Assessments and observations across KS1 and KS2 indicate significantly improved oral language among pupils, particularly disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment. 	
Improved attainment in Reading and Writing, as well as combined RWM, particularly for disadvantaged learners	 Higher % of Reception children achieve ELG of Literacy (41% in 2022 – 23) RWI in Reception and KS1 shows accelerated progress in word decoding and fluency, with more children achieving age related expectations Daily Supported Reading shows accelerated levels of progress from children's starting points with outcomes in line with age related expectations for reading by the end of Key Stage 1. Y1 phonics screening in line with national for disadvantaged and non-disadvantaged pupils Attainment in reading and writing improves across all year groups with a higher proportion achieving ARE by the end of KS2 in line with national expectations. The gap between disadvantaged and non-disadvantaged narrows More children, particularly disadvantaged learners, achieve combined RWM 	
Achieve and sustain improved attendance for	 Overall attendance will improve, closing the gap to national (94% in 2022 – 23) 	

all children, especially disadvantaged children.	 Persistent absence will be lower, closer to the national average (17.2% in 2022 - 23). Attendance rates for disadvantaged learners will improve (90.58% in 2022 - 23)
Disadvantaged pupils access a wide range of enrichment experiences both in and out of school.	 Proportional representation of disadvantaged children at clubs, in pupil voice, in pupil leadership positions e.g. school councillors Higher numbers of disadvantaged children attend a club throughout each academic year.
Improve the well-being of all children at Stockingford, particularly	 Children will be happier, more confident, more resilient and more articulate humans. This will be shown through Thrive assessments, pupil voice, parent and student surveys.
our disadvantaged pupils.	 OPAL is embedded into school life – pupil voice show less break time incidents and increased happiness at school

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

	Physical activity EEF (educationendowmentfoundation.org.uk)	
	Breakfast Club offered to all FSM children to tackle persistent absenteeism, lateness, pupil self-regulation and prepare children for learning/interventions at the start of the day. FSM Breakfast Club	

Total budgeted cost: £396,790

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

Outcome:
Primaries across Inspire Education Trust identified oracy as a significant weakness. Children enter Early Years with lower than expected language skills, breadth of vocabulary and standard English. CPD and development of teacher pedagogy around Oracy has been delivered as a Trust and school focus. Teachers have received training around de- veloping and promoting oracy within the classroom. Reading for pleasure continue to be a focus and working alongside parents to support children in developing a love of reading. An oracy strand tracker is used from Nursery to Year 6 to identify core age related steps. NELI and WELLCOMM interventions have been delivered in Early Years to develop children's language skills. In EYFS the outcomes for language rose from 76% to 78.4%. In observations, books trawls and pupil voice inter- views, children demonstrate increased communication and language skills with an improving ability to articulate them- selves and their learning.
In EYFS, attainment we had a greater improvement the ELGs than other schools in Warwickshire. Maths rose from 41% to 63% to 65%, communication and language 43% to 76% to 79%. However, the one ELG that really inhibited higher overall was Literacy (41%). In KS1, disadvantaged children did not perform as well as non-disadvantaged children - R(57% compared to 68%), W(53% compared to 64%), M (60% compared to 64%) – however, the gap did narrow and the results are quite closely aligned to non-disadvantaged.
Across KS1 and lower KS2, the trend showed a narrowing of the gap between disadvantaged and non- disadvantaged children.
Attendance showed levels continue to be slightly below national and local authority expectations. School work hard to inform parents of when it is appropriate to keep children off school through mediums such as Attendance Newsletter, telephone calls and home visits. Unauthorised holidays and persistent lates remain a concern. Attendance remains a whole school priority for 2023/24 and beyond. Attendance improved (91.3% -2022-2023) to 93.2% last year but was below national (94%). Disadvantaged

	last year. However, we still want this figure to improve in line with non-DA rates and national attendance figures.
Disadvantaged pupils access a wide range of enrichment experiences both in and out of school.	An increased proportion of disadvantaged children accessed clubs each term. All children had enrichment days, visitors and trips outside of school.
Improve the well-being of all children at Stockingford, particularly our disadvantaged pupils.	We have continued to strengthen relationships and communication with families, particularly those who are disadvantaged. With regards to attendance, we have far fewer unexplained absences with medical evidence provided as well as signposting parents with and to support when and where needed. Participation at school events (such as plays, assemblies and MTC support), parents' evenings and in reading diaries is continuing to improve. More work needs to be done with the additional mental health and well-being needs now prevalent within youngsters following the pandemic. Small Thrive sessions will continue to run alongside a newly introduced R time, a reflection time in each class at the end of the day whereby teachers and children can talk about their day before preparing themselves for the following day, and a new behaviour policy based around the Zones of Regulation. Zones of Regulation are now embedded in the teaching of PSHE and children are readily using this to discuss their well-being.
